

Photograph file size for CAMS-web software

When reporting a problem on CAMS-web v2.3.4 in Oxfordshire the form shows "Please keep photos as small as possible."

When reporting a problem on CAMS-web v2.4.2 in Buckinghamshire the form shows "Please keep photos as small as possible and do not exceed 4mb in size."

"Oxfordshire Ramblers Parish Path Warden Guidelines" version 10 (September 2018) suggests, in para. 12, 500 kB to 1.5 MB.

Typical photos from my (Samsung) mobile phone are 3.5 to 4.5 MB.

For notes on how to reduce photo file sizes see elsewhere.
